Insolation in hours per year: **2126**
Terraced vineyard: **Yes**
Labour required in h: **1.400**
First documentary evidence: **JF 1786 - 1787**

Description

Goldberg is a steep location that is listed as a section of the Mugler vineyard. The slope facing south-east, with an incline of up to 67%, produces its own cool wine style. The Rossatzbach stream flows down the trench to this vineyard, bringing cool winds and causing strong temperature fluctuations.
