

Süssenberg

Facts:

Town: **Loiben**
subsite of: **Loibenberg**
Size in ha: **1,06**
Altitude in m: **227 - 249**
Aspect: **S**

Average Slope in %: **23**
Max. Slope in %: **54**
Terraced vineyard: **Yes**
Labour required in h: **500**
First documentary evidence: **1547**

Description

Süssenberg is the second section of the Loibenberg vineyard (beside the Rothenberg); the name is used as a designation of origin, which can be traced back to the year 1515. This is also a south-facing slope, adjoining the Rothenberg to the east. The grapes from this parcel reach a particularly high degree of ripeness. This designation of origin must not be confused with Süssenberg in Mauternbach.
